

How We Can Help You!

We assist our clients with the regulatory registration and importation of Medical Devices in various contexts, ranging from Medical Devices for Investigational Product trials to supporting devices that form part of a larger trial protocol.

With a passion for effective supply in South Africa and facilitating the availability to clients, Sponsors, CROs (Clinical Research Organizations) and medical device manufacturers.

Some of Our Services include:

- Product Evaluation & Classification Services
- Importer Of Record (IOR) services
- Exporter of Record (EOR)
- Broker and customs compliance services
